

Call for Visitors

The e-Science Institute is preparing a series of workshops and events around the theme topic 'Exploiting Diverse Sources of Scientific Data'. The first event in November is on [Spatiotemporal Databases for Geosciences, Biomedical sciences and Physical sciences](#). This will be followed by a meeting sponsored jointly with Oracle in which Chris Date will present a talk titled 'Temporal Database in Depth: Time and Data Warehouse.' More workshops, meetings and research opportunities are planned. For full details on the themed programme please visit our website at <http://www.nesc.ac.uk/esi/themes/>.

If you are interested in being a visitor at eSI, participating in the programme and collaborating on work in this area, please apply to our visitor programme at http://www.nesc.ac.uk/esi/visitors_programme.html. Potential visitors interested in collaborating in other areas of e-Research are also encouraged to apply. All informal enquiries should be made to anna@nesc.ac.uk.
