

IBM comes to NeSC

On January 22nd, Dr Carol Kovac, General Manager of IBM Life Sciences, will be visiting NeSC for a series of presentations on Bioinformatics, the work that has been done in this field at Edinburgh and plans for a Bioinformatics Centre.

Dr Kovac's organisation brings together IBM strengths in such areas as e-business, supercomputing, data and storage management, data mining and knowledge management, as well as IBM's world-renowned research expertise in computational biology and parallel computing to deliver leading edge solutions for life sciences.

Forthcoming events, start 2003

January 2003

Thu 23 Jan - Fri 24 Jan

Registration Authority
Training Course

Tue 11 Feb - Wed 12 Feb
OGSAI-DAI Training Course

Thu 13 Feb - Thu 13 Feb
Resource Management and
Scheduling for the Grid

JAVA Success

The courses "Introduction to Java" and "Advanced Java" have proved to be extremely popular at NeSC, with the advanced course, due to take place on 3-6th February, being extremely overbooked.

It is anticipated that the course will be repeated in March to allow all those who are interested to take part.

NeSC opens up

NeSC will be holding its first Open Day for all interested people from the university and associated institutions, on 17th January. The event will begin at 2pm in the Newhaven Lecture Theatre.

Staff & Other News

We are pleased to announce the arrival of Gill Maddy, our new Conferences Manager. We wish Gill the best of luck as the new conference season gets going.

edikt

The eDIKT team will shortly be moving into newly-refurbished offices in Old College. Redecoration is in its final phases, with furniture and new phones yet to be installed.
