

Enabling Grids for
E-science in Europe

www.eu-egee.org

16th September 2004

EGEE, NextGrid & NeSC Training

Malcolm Atkinson
Director National e-Science Centre

- **Skills and understanding**

- Required *throughout* Europe to achieve Lisbon
- Fundamental foundation
 - For research, innovation, deployment, operations, ...
 - To build e-Infrastructure
 - To operate e-Infrastructure
 - To exploit e-Infrastructure
 - To make e-Infrastructure accessible to EU Citizens

Delivered by
Training & Education

- **Integrate Training & Education**

- Magnifier – train the educators
- Share infrastructure, material, exercises, examples, ...

- **Combine Creativity & Energy**

- From *all* projects
- Across Europe

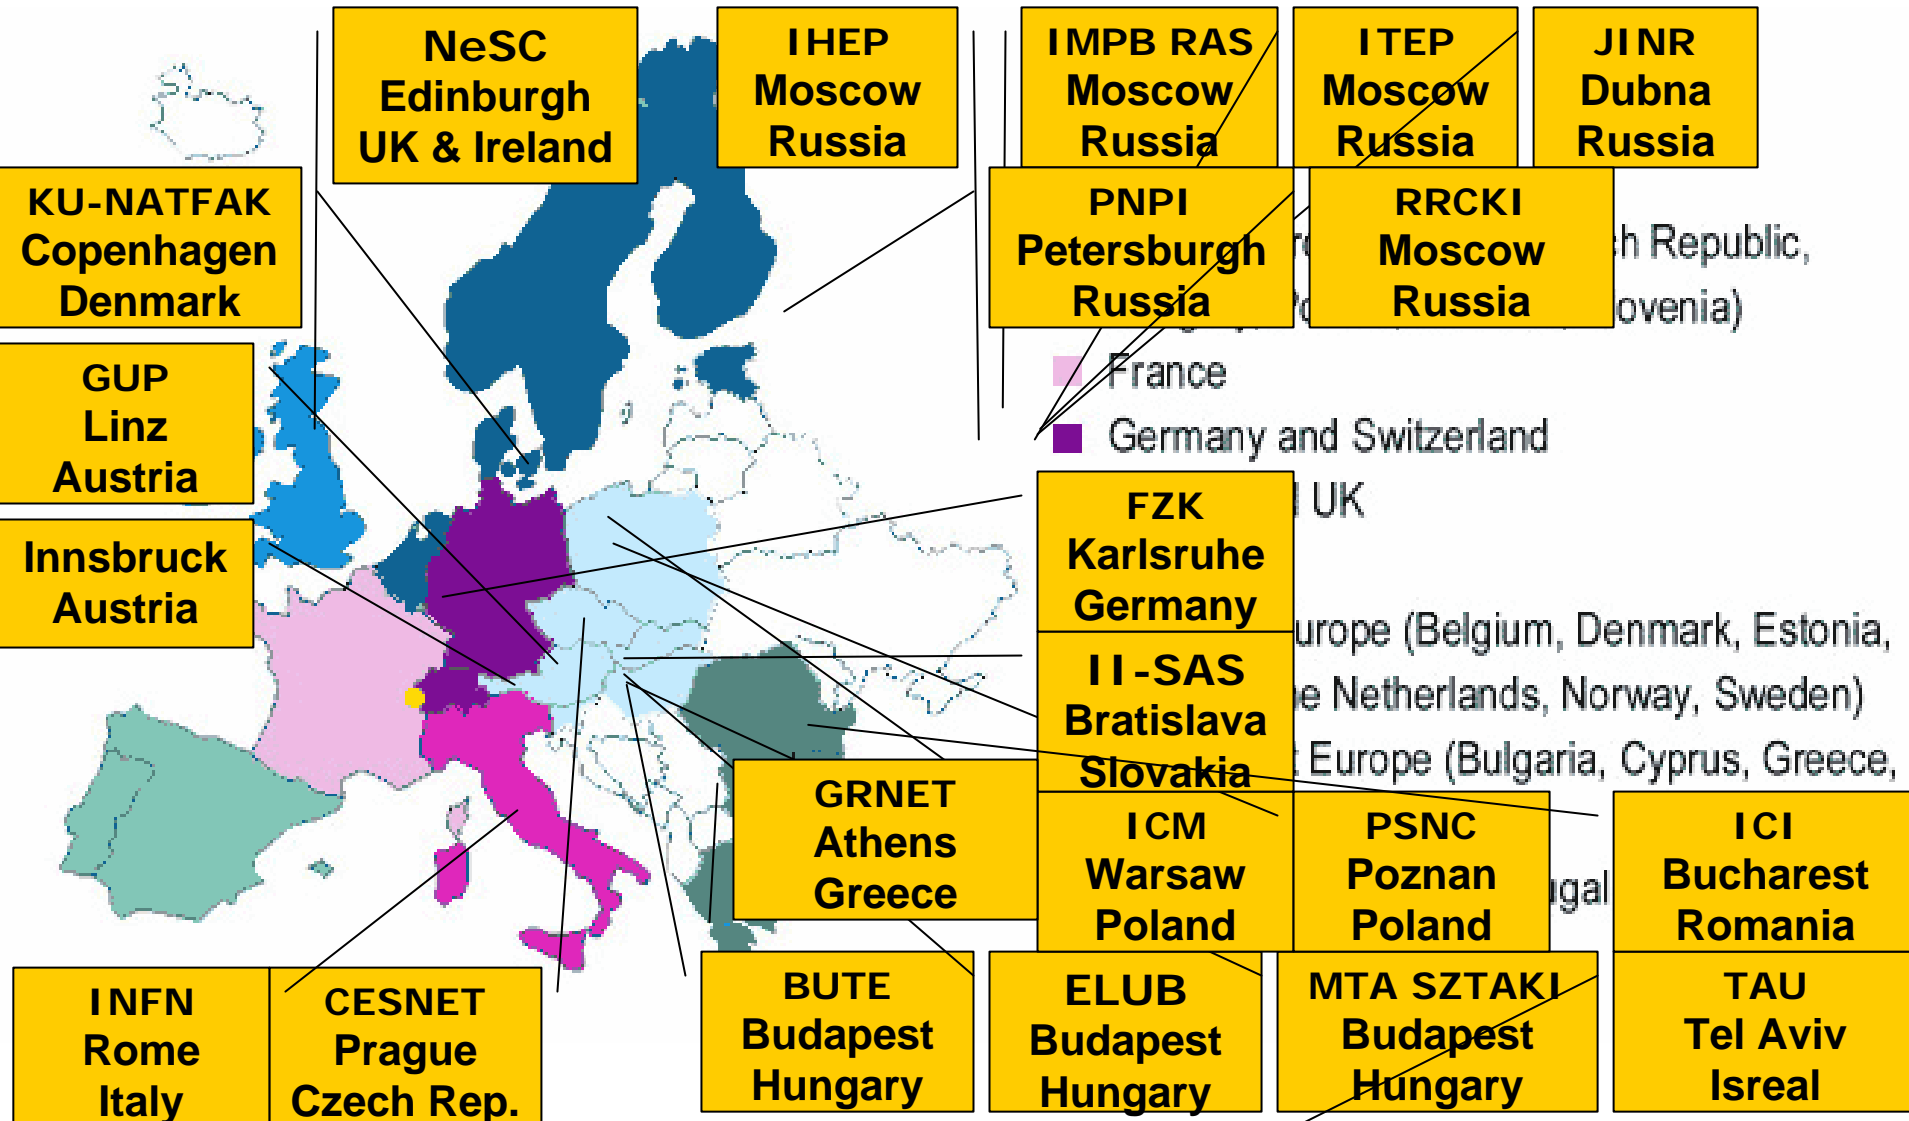

Grids are a disruptive technology
New skills needed
New ways of working
Stimulating Innovation
Demanding Collaboration

- **NeSC events hosted at the centre**
 - >200 average 8 per month over 3 years
 - >16,000 person-days
 - increasing awareness and expertise in Grid technologies
 - building a community
 - academic and industrial sectors
- **Dissemination: events / conferences + “Portal”**
 - (e-)Newsletter, Announce service, Jobs service
 - >4000 registered members
 - NeSC web site, NeSCforge, NeSC wikis, NeSC mail lists
 - Technical Report Series
 - Support for All Hands Meeting
 - Registration
 - Programme Cmttee: submission, review & decision tracking system
 - Programme & Proceedings production

- **The National e-Science Centre, Edinburgh, UK**
 - dedicated training team
 - 5 trainers
 - support staff
 - facilities
 - more posts in the pipeline
- **NeSC lead training for**
 - EGEE
 - NextGrid
 - UK e-Science

**NeSC & EGEE offer to extend their scope and activities
Collaborating with *all* EU e-Science & e-Infrastructure projects
For *all* Training & Education
Delivering for EU Citizens, Industry & Academia**

EGEE 22 Training Partners

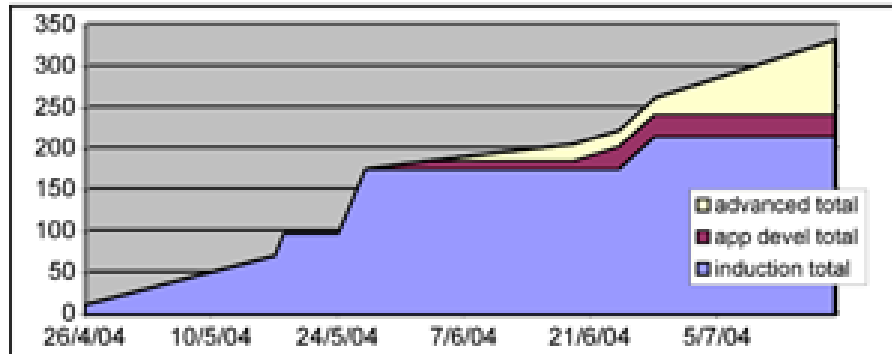

EGEE Training 22 Partner Institutes

University of Edinburgh	UK	FSUC	Denmark

EGEE training delivery

Total number of trainees

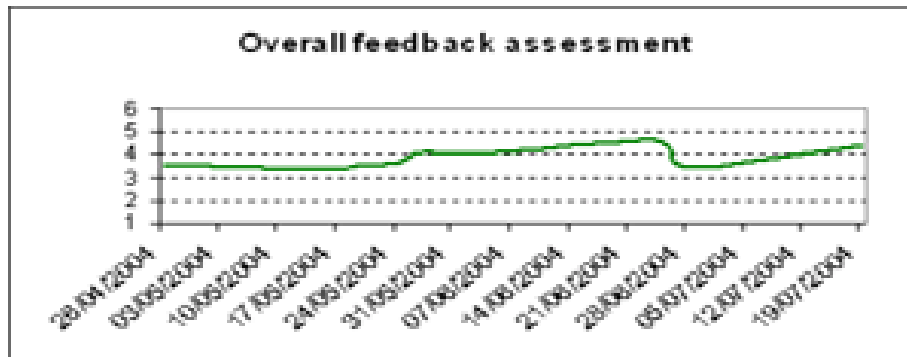

Training Events throughout Europe and beyond!

Since April 2004 EGEE NA3 has trained 350 people in 14 courses ranging from introductions to EGEE (induction) through application Developer to advanced level.

Next week 4 days in Karlsruhe
5-7 October in Latvia

NA3 is committed to maintaining and developing the quality of training. To do this feedback is collected from the users of courses.

Overall feedback assessment

1st & 2nd International Grid Summer Schools

Built on CERN Summer school Experience

International collaboration

- GGF
- Multi-national Sponsors
- High profile engaging teachers

Carefully Designed Syllabus

This year's event was attended by 84 selected advanced students – from all around the world

- **The EGEE training material is available**
<http://www.egee.nesc.ac.uk/trgmat/index.html>
 - For everyone
- **New advanced training materials repository**
 - Available Q4 2004
 - Structure, provenance, evaluation
 - Contribution support
 - Search
- **Two-day Meeting 1&2 Nov.**

Virtuous Circles
